the rate of $18\frac{1}{2}$ per cent, have gained 11,292, the total increase is 20,770, rather above $18\frac{1}{4}$ per cent—excess of females is 11,135. The proportion of males to females, which in 1821 was nearly $84\frac{3}{4}$, is now $84\frac{1}{4}$ to the hundred, or about 17 to 20, which leaves 11,135 of the fair sex, as far as the operations of Hymen are concerned, wholly unprovided for. The parish in which the greatest disparity prevails, is the west parish of Greenock, there being in it only 73 males to 100 females. But when the seamen, not included in the census, are taken into account, the disparity will be considerably diminished. In only 3 of the parishes is there a surplus of males, Cathedral 2, Inchinnan and Dunlop 4 each, ten in all. There are 8 of the parishes which has increased above 1000.

Paisley Abbey	5,431	Paisley Middle	1,643
Greenock Middle	3,805	Paisley Low	1,390
Paisley High	2,179	Eastwood	1,178
Neilston	1,497	Greenock East	1,069

The united increase of the three first, is more than all the other parts of the shire put together. All the parishes, except five, have increased. Of these five, Erskine is one, and it presents the singular fact, of having neither lost nor gained. Innerkip parish has decreased 256, Port-Glasgow parish 70, the Renfrewshire parts of Beith and Dunlop 2 and 12 respectively. We cannot account for the falling off in Port-Glasgow, and think there must have been some mistake, either in last or present census. A proof of this is, that in 1821, there were 89 houses uninhabited. Several have since been

redundant families, there would still be 59 empty houses in the parish, and every family in a self-contained house! The surveyor seems to have fallen into the error of calling every place where he found a family, a house. Over the whole county, there are rather above $2\frac{1}{2}$ families to each house, and rather above $4\frac{1}{2}$ individuals to each family. We subjoin a few other particulars:—

Total number of males 20 years of age and upwards	28099
Occupiers of land, employing labourers	770
Occupiers of land, not employing labourers	535
Labourers employed in agriculture	1953
Males employed in manufacture and making machinery	9305
Males employed in handicraft	8758
Wholesale merchants	1254
Labourers not agricultural	9337
All other males, 20 years of age and upwards, not included in the above classes	1375
Male servants above 20	212
Male servants under 20	252
Female servants	3564
Miners, &c.	1010

Though the excess of female population in Paisley is so great, there are some parts in the suburbs where the males exceed. This is the case in Ferguslie, and to a still greater extent in Charleston. Should, therefore, any of our fair friends in the dense part of the town, think of emigrating to increase the chances of matrimony, they will thus know what course to steer.

PUBLISHED AND SOLD

BY G. FOWLER, BOOKSELLER.

(See next Page.)

THE use of Directories is now so well understood that there are few Towns of any note in the kingdom without one. The value set on them in this District, is clearly evinced by the annually increasing patronage which the publisher of the RENFREWSHIRE COMMERCIAL DIRECTORY has experienced.

It is not to Manufacturers or Merchants alone that this work is necessary, embracing, as it does, a minute and well classified body of general information on subjects connected with the County, it will be found highly useful to all who have any connection with the Towns and Villages within its range.

The Publisher, while he returns his sincere thanks for the prompt and valuable assistance he has received from Gentlemen in the County, respectfully solicits a continuance of such assistance, as by it he is enabled to make his Lists more complete and correct, and consequently more generally useful.

As there are but few Copies thrown off, except what are subscribed for, non subscribers will require to make early application; and, to prevent disappointment, it will be found advantageous for those who wish to secure a copy, to give in their names when the surveys are taken.

The Publisher requests, that individuals who send in their addresses, &c. for publication, may be accurate in their statements, as they are inserted agreeable to the written notice,

NOTICES.

The Public are requested, when Removals and change of Firms take place, to send early notice thereof to the Publisher, in order that the Lists may be made-up by the 20th of May.

Attending to the notices will be found a great convenience to the Trading Public, and enable the Publisher to make the Lists more complete.

Any suggestion relative to the improvement of the Directory, will be thankfully received by the Publisher, if sent before the 20th May.

DIRECTIONS

For the Recovery of the apparently Drowned or Dead,
 BY THE PAISLEY HUMANE SOCIETY.

IN APPARENT DEATH three objects are constantly to be kept in view: 1st, to remove every hurtful cause; 2d, to regulate the temperature of the body; 3d, to restore breathing. For these purposes the following directions may be usefully employed, till medical assistance arrive, which ought instantly to be sent for in every case.

In a Case of Drowning.

Remove as quickly as possible all wet clothes from the body, dry it well, wrap it in any warm woollen covering, and convey it, with the head and breast, moderately raised, to the nearest house, where none but useful assistants ought to be admitted. Let the body now be laid in a warm bed or upon a warm blanket near a fire, *but not exposed to a strong heat*. Let the lost heat be restored by rubbing the surface with warm cloths or hands, by wrapping a piece of warm flannel or blanketing round the waist, and by applying warm substances, *first and chiefly* to the trunk and head, *next* to the limbs. The most convenient for this purpose are bottles or flasks filled with warm water, and bags or stockings filled with hot grains, chaff, bran, salt, or sand.* Large glysters of warm water should also be exhibited. To restore the breathing let a person firmly compress the nostrils with the fingers of one hand, then apply his mouth across the mouth of the body and blow forcibly; let him now lift his head and the air will escape. This operation is to be commenced as soon as possible, and continued till natural breathing return, or till the case appear hopeless. If water in the mouth and nostrils prevent inflation of the lungs, it ought to be discharged by blowing into the mouth while the nostrils are left open.

In a Case of Strangling.

Remove every thing tight from the neck and breast, then proceed to inflate the lungs and restore heat, as directed above.

In a Case of Suffocation from Impure Air.

Admit fresh air, inflate the lungs, and restore heat as directed above, if the body be cold; if, as sometimes happens, it be warmer than naturally, reduce the heat by dashing the head, neck, and breast smartly with cold water.

In a Case of Apparent Death from Lightning.

Besides using the same means as for suffocation, give large glysters of salt and water, and use friction over the whole body.

In a Case of Apparent Death from Intense Cold.

Avoid placing the body *at first* near the fire, use friction rather than apply heat for a time; in other respects act as for drowning.

* On the first alarm of any person being drowned, let warm water be procured, which can now (1831) be very readily obtained from any of the public works erected near the river. In this immerse the body, taking care that it be no hotter than the hand can bear without pain, at same time keeping the head and breast moderately raised. This is preferable to the other means for restoring warmth. Rub the body with the hand; *do not*, however, suspend the use of the other means at the same time.

In a Case of Excessive Intoxication.

If the breathing be suspended act as for drowning, give large glysters of salt and water, endeavour to bring up the contents of the stomach by tickling the throat with feathers; for the same purpose when the power of swallowing is restored, give copious draughts of warm water.

To prevent Death from Loss of Blood.

If from a wound, apply firm pressure to the wound by the finger, or a small pad, till medical assistance can be procured.—If from a limb, twist a handkerchief tightly round the limb, nearer to the heart than the wound. If fainting has taken place, lay the patient in the recumbent position, and apply hartshorn to the nostrils.—If the bleeding is from an internal part, apply cold wet cloths, and avoid all stimulants.

A Medical Apparatus lies in the Town's Hospital, another in the House of Recovery, and a third in the shop of Mr. Browning, druggist, 21 High street, (Cross.)

Cumming, 30 Wellmeadow street, and R. A. Rankin, Oakshawhead, secretaries—members, about 300.

This association is instituted for the very laudable purpose of correcting unguarded habits of intemperance, that might be formed in the minds of unsuspecting youth, and also for preventing as far as possible, the formation of those habits. The members of this association, while they entertain the highest opinion of the benefits arising from mutual intercourse with each other, yet view with alarm, the dangers to which youth is exposed in promiscuous assemblages, where the intemperate and vicious may contaminate by their influence and example, the better feelings which have been formed in the minds of the young and inexperienced, with a view therefore to accommodate its members, and to afford them, and the public, a rational source of pleasure and instruction, the Association has established an elegant and commodious Coffee house and news room (22 Cross), which, from its central situation and interior arrangements, is a place well calculated to promote friendly intercourse and intellectual refinement.

The Council meet monthly, or oftener, as occasion requires, and general meetings of the whole members are called when necessary. The election of the Council takes place on the first Monday of July annually.

OBJECTS OF THE RENFREWSHIRE POLITICAL UNION.

1. To obtain by every just and legal means, such a Reform in the Commons House of Parliament, as will ensure a real and effectual representation of all classes of the people.—2d. To enquire and consider in a lawful manner, from time to time, respecting the rights and liberties of the industrious classes, and respecting the legal means of securing those which remain, and recovering those which are lost.—3d. To collect and organize the peaceful expressions of the Public opinion, so as to bring it to bear upon both Houses of Parliament, in a just, legal, and efficient way.—4th. To endeavour to obtain an effectual Burgh and Law Reform in Scotland.—5th. To promote by every legal means, the elections of Members of Parliament, so as to secure the return of upright and able Representatives of the People.—6th. To obtain the establishment of a shorter duration of Parliaments, by the Repeal of the Septennial Act, which is of recent introduction, is dangerous in principle, and injurious to the best interests of the country.—7th. To obtain the extension of the Elective Franchise, at least, to all male householders; and also the right of Voting by Ballot, that purity and good order may be preserved, and bribery and all undue influence be defeated in Parliamentary and Burgh elections.—8th. Unceasingly to plead for, until obtained, such a change and reduction of Taxation and National expenditure, as shall be necessary to restore the Country to its former prosperous state.—9th. To prepare Petitions, Addresses, and Remonstrances to the Crown and the Legislative Bodies, respecting the preservation and restoration of Public Rights, and respecting the repeal of Bad Laws, and the enactment of Good Laws.—10th. To avoid all private or secret proceedings of any kind or nature, and all concealment of any of the views or objects of the Union, it being the fixed basis of the Union in all things to obey and conform to the law.

In the foregoing list, we regret to observe that the Humane Society is not now included. It was instituted in 1806, but has been defunct several years. Boats were *then* stationed at Nether Common, Slate Quay, and High Linn. The following were the Boatmen appointed, whose duty it was to take charge of the boats, hooks, drags, &c. when accidents of this kind occurred :—

Boat, No. 1. Stationed at the Nether Common, was managed by Alex. and George Smith, Matthew and Andrew Robertson, Mathew Millar, William M'Culloch, Thos. Thomson, Joseph Cox, David Gray, James M'Farlane, residing at Nether Common.

Boat, No. 2. Stationed at the Slate Quay, was managed by Mathew and Robert Gemmill, Robert Blackwood, James Erskine, David Wylie, Alex. Stewart, James Millar, residing in Sneddon.

Boat, No. 3. Stationed at the High Linn was managed by Thos. and David Wotherspoon, Alex. Brown, John Nimmo, residing at Seedhill.

These individuals were in the habit of regularly training themselves in the management of the Boats and Apparatus, and had consequently acquired considerable proficiency.

The Oars, Hooks, and Drags were lodged with Mr. James Smith, Bricklayer, Nether Common—Mr Joseph Thomson, tanner, Sneddon—Mr. Duncan Kerr, bleacher, Bailie Carlile's field—Thomas Wotherspoon, weaver, Seedhill—and Peter Wright, gardener, Canal Basin.

This truly benevolent Society, while in active operation, was productive of much good, in the recovery of persons apparently drowned. We have inserted in our Appendix the directions and mode of treatment recommended by the Paisley Humane Society. Late instances have shewn the melancholy want of proper apparatus at those places where accidents of this nature are most liable to occur, the boats, drags, &c. formerly provided, being now nearly useless.

TO MANAGERS OF SOCIETIES.

Those who wish their Society inserted, will please send early notice thereof to the Publisher, with the date of Election the title of Society, the names of the Preses, Treasurer, Clerk, and Officer, with the No. and name of the street in which they reside; also the date of Election of Office bearers. Attending to this notice will be found a great convenience to members of Societies, and enable the Publisher to make the lists more complete.

FAIRS.

Johnstone Cross, nearly opposite to the Black Bull Inn, is distant from the Cross of Paisley, 3 miles, 5 furlongs, 34 poles. Fairs are held on the Thursday following the second Monday of July and on the last Thursday of October, for cattle; also, on the last Friday of December for horses.

Although this Market is not generally known, being but lately established; yet from the excellent supply of cattle brought forward, promises to be one of the most numerous attended Fairs in the West of Scotland. The market place is spacious and very extensive, affording accommodation rarely to be met with.

FAIRS.

*Lillia's Day, 3d Tuesday of July, Old Style.

*St. Barchan's Day, 1st Tuesday of December, Old Style.

* Old Style is too antiquated to be understood now, and we would recommend to the inhabitants of those villages who regulate their Fairs by it, to join in "the progressing march of intellect." The Russians, who are in the rear of European civilization, have lately adopted New Style, and surely we will not allow ourselves to drop behind.

Society's Ploughing Match.—February was anciently a month pregnant with stupid and hurtful practices, particularly in the Highlands of Scotland, where the natives seemed to look upon it as possessed of purifying qualities. They accordingly flocked to Dunkeld, Perth, and Crieff, to get phlebotomized, and after having performed the ceremony, both males and females joined in copious libations of "Nappy Ale" to supply the loss of the more ruddy fluid. The folly of Valentine's day—the cruelty of Fasting's Eve—and the gambling amusements of the Cock-pit, ought likewise to be obliterated, and the minds of the rising generation directed to pursuits of a more noble and manly character. Accordingly a number of philanthropic individuals, in and around the parish of Neilston, instituted a society, the object of which is to direct the minds of youth to the improvements that may be effected in the noble and necessary art of agriculture. They held their fifth annual ploughing match on the farm of Dykebar, possessed by Mr Hamilton, on the 22d Feb., when, notwithstanding the infancy of the Society, no less than twenty-six competitors appeared on the field, by half-past seven o'clock. The ground having been marked off by the managers, and drawn for by the ploughmen, a keen and lively contest ensued, and so uniformly good was the execution of the work, that the judges experienced considerable difficulty in determining the different premiums, which were as follows:—

1. To John Algie, Inchinnan, who acted as ploughman for L. Cowan, Barrhead.
2. To Andrew Robertson, Hillington
3. To John Algie of Cockerhill, ploughman for J. Cochrane, Glanderstone
4. To David Connell, Balgray, ploughman for Wm. Craig, Barrhead

5. To John Lochhead, Slates, ploughman for Dr. Young, Barrhead
6. To Alexander Snodgrass, New Mains, ploughman for John Auld, Paisley
7. Matthew Bowie, for William Yuill, Charleston

The managers and judges, and a number of farmers in the neighbourhood, were afterwards invited to dine in Mr Hamilton's, when the evening was spent in a most harmonious manner. From a decided conviction of the advantages which such societies confer on the country, a considerable number of new members joined, and the society bids fair to receive a high degree of encouragement in the prosecution of its useful labours.

FIRST PUBLICATION.

PAISLEY:
PUBLISHED AND SOLD
BY G. FOWLER, BOOKSELLER.

IN presenting to the public the first edition of the *Directory for the Lower Ward of Renfrewshire*, the publisher with gratitude acknowledges the valuable assistance he has received from many respectable individuals, and solicits a continuance of such favours, as he is thereby enabled to make his *Lists* more complete, and consequently more generally useful.

The Publisher has also to apologize for the late appearance of the *Work*. Its publication has been delayed, upon account of some important improvements which he had the honour of proposing to the authorities of *Greenock*, relative to the naming of the *Streets*, and numbering of the *Houses* in that *Town*; the plans were immediately approved of, and, he being requested to superintend their completion, was under the necessity of devoting a considerable part of his time to that purpose; the new arrangements also rendered his first survey of little avail, he had, therefore, to survey the town anew, and to remodel his materials, to correspond with the necessary alterations.

With the consent and concurrence of *General Darroch*, similar improvements have also been introduced into *Gourock*, which adds much to the convenience of the inhabitants, and still more to that of strangers, who, during the summer months, resort to this well frequented watering place.

Improvements, such as those alluded to, have been, at the suggestion of the Publisher, introduced into most of the principle towns in *Renfrewshire*, the decided advantages of which are duly appreciated. It is to be hoped, that an improvement so generally useful, will not fail to recommend itself to the intelligent and public spirited authorities of every town and village in the county.

With regard to the usefulness of such a work, he deems it unnecessary to say much, as this, on the slightest inspection, will be found apparent. The *Lists* and *Tables* inserted in the *Appendix* are of the most useful description, and suitable not only to the *Merchant* and *Trader*, but to the public generally. In the accuracy of details, and distinctness of arrangement, he is aware that the chief value of such a work consists; he has, therefore, spared neither pains nor expense in securing these. As it will require a series of publications to remunerate him for his labours, he looks forward with confidence to a discerning public, for that support in his undertaking which his exertions require; at same time, he pledges his most unremitting attention to every source of information whereby he may render his *Directory* in every way worthy the very distinguished patronage it has already received. In the first edition of such a work, some errors and omissions are almost unavoidable, but these, he trusts, will be few, and not of great importance.

REGULATIONS FOR PORTERS AND BARROWMEN.

The Magistrates and Town Council of Greenock, in virtue of the powers committed to them by the Acts of Parliament, 41, Geo. III. cap. 51, and 57, Geo. III. cap. 32, hereby enact and ordain the following Regulations, to be strictly observed and enforced from and after the 1st June 1826, until expressly altered, viz:—

1st. That no Porter or Barrowman shall be permitted to ply for hire within the Town of Greenock, and on the Quays and Breasts thereof, without being first licenced pursuant to the said Acts, and having found caution faithfully to observe and fulfil the present Regulations; and each Porter shall have constantly affixed to his breast a Badge, specifying his number, and which shall be delivered to him on his being licenced;—and all persons contravening this Regulation, shall forfeit and pay a sum not exceeding Five Pounds for each offence.

2d. That all Porters shall with diligence and expedition perform the services for which they are engaged, and shall not soil or injure the property entrusted to their charge; and shall conduct themselves with civility and discretion, under a penalty not exceeding Five Pounds for each offence, besides being liable to the party injured for damages.

3d. That when a Steam Vessel just arrived at the Harbour has taken a birth in the outside of another Steam Vessel, no Porters or Barrowmen to stand on the paddle-box or on the side of the inside Vessel, but arrange themselves in the middle of that Vessel, and if the Vessel just arrived occupies an inside birth, they shall then arrange themselves on the Quay, at least four feet from the edge thereof till called to be engaged, and permitted to pass on board by the officer attending for that purpose; nor shall any Porter, upon being engaged to carry Luggage or other Goods in the Town of Greenock, or from the Quays and Breasts thereof, attempt to transfer these to another Porter, but shall himself fulfil his engagement, and when required, accompany his employer: and all persons contravening this Regulation, shall be subjected in a penalty not exceeding Five Pounds for each offence.

4th. That no Porter shall embark the Luggage of Passengers going on board of any Steam Vessel until the Passengers intending to land at the Harbour shall have first landed with their Luggage, under a penalty not exceeding Five Pounds for each offence.

5th. That the Wheel Barrows belonging to the Porters who ply on the Harbour, appointed for the Steam Boats, and in the Town of Greenock, shall be arranged and stationed, each with the number of its owner's Badge, and his name legibly painted thereon, in a situation to be fixed by the Officers appointed for that purpose, under a penalty not exceeding Five Pounds for each offence.

6th. That Porters plying on the Steam Boat Quay shall be careful not to permit boys or other idlers to go on board any of the Steam Vessels, and, if necessary, they shall call for assistance on the officer on the station, and on the masters and crews of the Steam Vessels, to aid them in keeping boys and idlers from going on board, and in forcing them when on board, on shore: And the Officer, and the master and crews of Steam Vessels, shall be bound to give such assistance: And all persons contravening this Regulation, shall forfeit and pay a sum not exceeding Five Pounds for each offence.

7th. That no Porter shall demand or take a higher sum for his services than the fares stated in the Table hereunto annexed, and each Porter shall, when plying, have in his possession a copy of these Regulations and the Fares annexed, and shall at all times produce the same to the person employing him when required, and that under a penalty not exceeding Five Pounds for each offence.

8th. That the Magistrates, on sufficient cause shown, may declare the Bond of Caution granted for any Porter forfeited, and deprive the offender of his Licence and Badge.

9th. The penalties incurred under the preceding Regulations, may be sued for before the Magistrates, and recovered, at the instance of the Procurator Fiscal of the Town of Greenock; and such proportion of these penalties to be awarded to the informer as the Court may in its discretion direct.

10th. That a Printed Copy of these Regulations, and Table of Fares annexed thereto, be placed in the Cabin and Steerage of each Steam Vessel, for the information and guidance of the Public.

REGULATIONS FOR STEAM VESSELS.

The Magistrates and Town Council of Greenock, Trustees for the Improvement of the Harbours of Greenock, and for establishing, supporting, and regulating the Police thereof, in virtue of the powers committed to them by the Acts of Parliament, 50, Geo. III. Cap. 167, and 57, Geo. III. Cap. 32, hereby enact and ordain the following Regulations, to be strictly observed and enforced from and after the first day of June 1826, until expressly altered, viz. :—

1st. That every Steam-Vessel for the conveyance of Passengers only, shall be brought alongside of that portion of the outside of the Custom-house Quay betwixt the Watch-house and Light-house, provided the same is not previously occupied; and Steam-Vessels for the conveyance of Goods and Luggage shall take their stations alongside the other portion of the said Quay—and that under a penalty not exceeding Five Pounds for each offence.

2d. That all Masters or other persons in charge of Steam-Vessels, shall depart and sail from the said Harbour *punctually* at the hours of sailing announced on the boards put up for the said Vessels within the town of Greenock, and that under a penalty not exceeding Five Pounds for each offence. And the time of the day shall be regulated and determined by the Public Clock at the Square. And on no account shall the period which has been announced, be altered by the Masters, or by others under their directions or acting under their authority, under a penalty not exceeding Five Pounds for each offence. But it is hereby provided and declared, that if, from the state of the weather or any unforeseen occurrence, the Vessel cannot sail at the time announced on the boards, she shall depart as soon thereafter as the Master or other in command shall be required by the person appointed as after-mentioned, and that under a penalty not exceeding Five Pounds for each offence.

3d. That the Bugle or Horn, used as a call for the Sailing of any Steam-Vessel, shall not be blown or sounded for such purpose until within five minutes of the time appointed for sailing, and it shall be done not on the Quays or through the streets, but by a person stationed on board the said Vessel, and that under a penalty not exceeding Five Pounds for each offence.

4th. That Masters and Crews of all Steam-Vessels, lying nearest the Quay, shall have a sufficient gang-way board, with a hand-rail affixed to it, placed betwixt their Vessel and the Quay, and shall give free access over the decks of their Vessels to passengers, to and from the Vessels lying in the outside births or stations; as also free access for the conveyance of luggage and coals, to and from said vessels—under a penalty not exceeding Five Pounds for each offence.

5th. That when it is dark, every Steam-Vessel, for passengers, shall, under a penalty not exceeding Five Pounds for each offence, have and use sufficient lights at the time of their arrival at, or departure from, the Harbour, so as to enable passengers to get on board or to land with safety.

6th. That the Masters and Crews of all Steam-Vessels, shall take special care to exclude all persons under pretence of selling fruit or other eatables, or persons pretending to be porters, from coming and remaining on board within ten minutes of the hour of sailing, and shall, when called upon, assist the officer on the Station and the Licensed Porters in keeping on shore boys or other idlers—under a penalty not exceeding Five Pounds for each offence.

7th. That in order to defray the expence of removing and carting away the dross, ashes, and rubbish, discharged from Steam-Boats and laid down upon the Quay, there shall be paid annually as follows, viz : For each Steam-Vessel plying on the River and resorting to Greenock Quays daily, at the rate of 1s. 6d. for every horse-power.

Steam-Boats plying on the line, that only call at Greenock,

Once in 2 days, 1s. 4d. per each horse-power.

Once in 3 days, 1s. 2d. do.

Once in 4 days, 1s. 0d. do.

Once in 5 days, 10d. do.

Once a week, 8d. do.

8th That a person shall be appointed by the Magistrates and Council, to see these regulations carried into execution and strictly enforced ; and the Masters and Crews of Steam-Vessels shall obey the orders and instructions given by that person.

9th. That the penalties incurred, under the preceding Regulations, may be sued for before the Magistrates of Greenock, and recovered at the instance of the Procurators Fiscal of the Harbour Police of Greenock; and such proportion of these penalties to be awarded to the informer as the Court may in its discretion direct.

10th. That a printed copy of these Regulations shall, by its owners, be placed in the Cabin and in the Steerage of each Steam-Vessel, and which shall at all times be open and patent to the passengers on board of said Vessel—under a penalty not exceeding Five Pounds for each offence.

Walter Laird, collector of anchorage, steam boat dues, &c. Custom House Quay—A. Adam, superintendant for birthing steamers.

DIRECTIONS

For the Recovery of the apparently Drowned or Dead,
BY THE PAISLEY HUMANE SOCIETY.

IN APPARENT DEATH three objects are constantly to be kept in view ; 1st, to remove every hurtful cause ; 2d, to regulate the temperature of the body ; 3d, to restore breathing. For these purposes the following directions may be usefully employed, till medical assistance arrive, which ought instantly to be sent for in every case.

In a Case of Drowning.

Remove as quickly as possible all wet clothes from the body, dry it well, wrap it in any warm woollen covering, and convey it, with the head and breast, moderately raised, to the nearest house, where none but useful assistants ought to be admitted. Let the body now be laid in a warm bed or upon a warm blanket near a fire *but not exposed to a strong heat*. Let the lost heat be restored by rubbing the surface with warm cloths or hands, by wrapping a piece of warm flannel or blanketing round the waist, and by applying warm substances, *first and chiefly* to the trunk and head, *next* to the limbs. The most convenient for this purpose are bottles or flasks filled with warm water, and bags or stockings filled with hot grains, chaff, bran, salt, or sand*. Large glysters of warm water should also be exhibited. To restore the breathing let a person firmly compress the nostrils with the fingers of one hand, then apply his mouth across the mouth of the body and blow forcibly; let him now lift his head and the air will escape. This operation is to be commenced as soon as possible, and continued till natural breathing return, or till the case appear hopeless. If water in the mouth and nostrils prevent inflation of the lungs, it ought to be discharged by blowing into the mouth while the nostrils are left open.

In a Case of Strangling.

Remove every thing tight from the neck and breast, then proceed to inflate the lungs and restore heat, as directed above.

In a Case of Suffocation from Impure Air.

Admit fresh air, inflate the lungs, and restore heat as directed above, if the body be cold; if, as sometimes happens, it be warmer than naturally, reduce the heat by dashing the head, neck, and breast smartly with cold water.

In a Case of Apparent Death from Lightning.

Besides using the same means as for suffocation, give large glysters of salt and water, and use friction over the whole body.

In a Case of Apparent Death from Intense Cold.

Avoid placing the body *at first* near the fire, use friction rather than apply heat for a time; in other respects, act as for drowning.

In a Case of Excessive Intoxication.

If the breathing be suspended act as for drowning, give large glysters of salt and water, endeavour to bring up the contents of the stomach by tickling the throat with feathers; for the same purpose, when the power of swallowing is restored, give copious draughts of warm water.

* On the first alarm of any person being drowned, let warm water be procured. In this immerse the body, taking care that it be no hotter than the hand can bear without pain, at same time keeping the head and breast moderately raised. This is preferable to the other means for restoring warm'th. Rub the body with the hand; *do not*, however, suspend the use of the other means at the same time.

To Prevent Death from Loss of Blood.

If from a wound, apply firm pressure to the wound by the finger, or a small pad, till medical assistance can be procured.—If from a limb, twist a handkerchief tightly round the limb, nearer to the heart than the wound. If fainting has taken place, lay the patient in the recumbent position, and apply hartshorn to the nostrils.—If the bleeding is from an internal part, apply cold wet cloths, and avoid all stimulants.

OBJECTS OF THE RENFREWSHIRE POLITICAL UNION.

1. To obtain by every just and legal means, such a Reform in the Commons House of Parliament, as will ensure a real and effectual representation of all classes of the people.—2d. To enquire and consider in a lawful manner, from time to time, respecting the rights and liberties of the industrious classes, and respecting the legal means of securing those which remain, and recovering those which are lost.—3d. To collect and organize the peaceful expressions of the public opinion, so as to bring it to bear upon both Houses of Parliament, in a just, legal, and efficient way.—4th. To endeavour to obtain an effectual Burgh and Law Reform in Scotland.—5th. To promote by every legal means, the elections of Members of Parliament, so as to secure the return of upright and able Representatives of the People.—6th. To obtain the establishment of a shorter duration of Parliaments, by the Repeal of the Septennial Act, which is of recent introduction, is dangerous in principle, and injurious to the best interests of the country.—7th. To obtain the extension of the Elective Franchise, at least to all male householders; and also the right of Voting by Ballot, that purity and good order may be preserved, and bribery and all undue influence be defeated in Parliamentary and Burgh elections.—8th. Unceasingly to plead for, until obtained, such a change and reduction of Taxation and National expenditure, as shall be necessary to restore the Country to its former prosperous state.—9th. To prepare petitions, addresses, and remonstrances to the Crown and the Legislative Bodies, respecting the preservation and re-toration of Public Rights, and respecting the repeal of Bad Laws, and the enactment of Good Laws.—10th. To avoid all private or secret proceedings of any kind or nature, and all concealment of any of the views or objects of the Union, it being the fixed basis of the Union in all things to obey and conform to the law.

D I R E C T O R Y .

 The Publisher feels much pleasure in calling the attention of his readers, particularly those of them who are in the habit of passing some part of the summer season on the coast, to this beautifully situated, and easily accessible village. The names of the streets have recently been painted on conspicuous places, and the houses numbered, so that letters and parcels may now be so explicitly directed, that all chances of delay are removed. The list of lodging houses will be found peculiarly useful, as, at a single glance, the number of apartments and beds are seen, and strangers will thus know, at once, where to apply, according to the extent of accommodation wanted. The numerous vessels at all times passing up and down the channel, renders the place peculiarly enlivening, while its proximity to Greenock, the numerous opportunities daily afforded for starting to Glasgow and Paisley, and other places up the river, the ease with which men of business can visit their families after the business of one day is over, and return in time to commence the business of a new day, all combine to render it one of the most agreeable places on the shores of the Clyde.

INNERKIP AND NEIGHBOURHOOD

DIRECTORY.

INNERKIP.

This pleasantly situated watering place is about five miles below Gourock, and possesses excellent bathing accommodation. From the list of Furnished Lodgings subjoined, showing the number of Apartments and Beds, strangers can accommodate themselves with Lodgings to the required extent with almost no trouble. The purity of the air, the agreeable site, and the easy communication, either by land or water, with the populous towns and cities on the Clyde, render it altogether a very pleasant and desirable retreat, either for the invalid or for the man of business who wishes to escape for a season the busy turmoils of commercial life.
